

Ingham Intermediate School District

Student Support Services

MASCOT - (Mathematics Augmentation Series: Cultivating Optimal Teaching) is a two-week program designed to serve students who have been identified as having a high potential for learning advanced mathematics. This program model allows for development in the content area of mathematics, as well as for better self-understanding through the use of specific guidance strategies and techniques.

STUDENTS: Completed grades 6-7

DATES: July 9-20, 2018

FEE: \$260 (partial scholarships available – Lansing School District students receive full scholarships)

Location: Mt. Hope Elementary, Lansing School District

KIDS' COLLEGE - Kids' College is a two-week, half-day, dynamic academic program for students who are identified as having high abilities or interest in science. Students focus on inquiry-based experiences with hands-on and applied learning.

STUDENTS: Completed grades 4-5

DATES: July 9-20, 2018

FEE: \$290 (partial scholarships available – Lansing School District students receive full scholarships)

Location: Michigan State University
