

Message from the Principal

North Aurelius is a wonderful K-5 facility that has a caring staff, a beautiful media center, and a 30 station computer lab. We take a great deal of pride in our school, and we provide each student with a positive and safe learning environment. Working together, our staff provides each and every child with an optimum learning experience.

We offer a well-rounded curriculum designed to meet all state standards and guidelines, with an emphasis on a balanced literacy approach to reading instruction. In addition to a core curriculum of Math, English Language Arts, Science, and Social Studies; our students also receive Physical Education, Art, Music, Spanish, and Technology instruction. Also, Positive Behavioral Intervention and Supports (PBIS) and Multi- Tiered System of Support (MTSS) are utilized at the school.

Additionally, we offer support services for special needs students, as well as opportunities for academically talented students. We also provide extended learning activities throughout the school year including assemblies, field trips, Big Lessons, and the annual fun run.

Our Parent Teacher Organization is very involved in our school, sponsoring a variety of special activities throughout the school year including visiting authors, the holiday gift shop, carnival, and many other fun and educational events.

North Aurelius Elementary School is a premier school, and we welcome you to visit us!

Mike Prelesnik, Principal
